How FleetVix handles information and privacy

Last Updated: [DD Month YYYY]

1. Introduction

FleetVix (“we”, “our”, or “us”) provides construction-site management, vehicle and machinery tracking, attendance, work records, fuel and expense management, reporting, and related services.

This Privacy Policy explains how FleetVix collects, uses, stores, shares, and protects information when you use our website, application, or related services.

By using FleetVix, you acknowledge that you have read this Privacy Policy. Where consent is required, we will request it separately and explain the relevant purpose.

Service Provider: [Legal name of owner/company]

Business Address: [Business address]

Privacy Contact: [Privacy email address]

2. Information We Collect

Depending on the features you use, FleetVix may collect:

A. Account Information

- Name and email address.
- Phone number, if provided.
- Login and authentication information.
- Account role, such as owner, supervisor, driver, or worker.

B. Construction-Site Information

- Site names, addresses, and assignments.
- Work logs, attendance, working hours, and task records.
- Material usage, expenses, project progress, and reports.
- Photos, documents, and receipts uploaded by users.

C. Vehicle and Machinery Information

- Vehicle or machinery identifiers, registration details, and assigned operators.
- Trip records, site visits, and operating logs.
- GPS location and location history, when the relevant tracking feature is enabled.
- Fuel purchases, recorded fuel quantities, fuel expenses, and consumption estimates.
- Information received from compatible third-party telematics services, if an integration is enabled.

D. Technical Information

- Device type, operating system, app version, IP address, and diagnostic logs.
- Login timestamps, feature usage, and security-related activity.

E. Subscription and Payment Information

- Subscription plan, payment status, transaction references, and billing records.

Payments may be processed by third-party payment providers. FleetVix does not intend to store full payment-card details or payment credentials unless a specifically disclosed and compliant payment arrangement requires it.

3. How We Use Information

We use information to:

- Create and manage user accounts.
- Connect owners, workers, drivers, vehicles, and construction sites.
- Record attendance, work activities, expenses, and project progress.
- Display permitted vehicle locations and site-related tracking information.
- Maintain fuel records and calculate estimates from available data.
- Generate reports, receipts, dashboards, and project summaries.
- Process subscriptions and verify payments.
- Provide customer support and troubleshoot errors.
- Prevent fraud, unauthorized access, and misuse.
- Maintain records required by law and meet applicable legal obligations.
- Improve FleetVix and develop new features where permitted.

We will not use personal data for unrelated purposes that require additional consent without providing the appropriate notice and obtaining that consent where required.

4. Location Tracking and Employee Transparency

FleetVix may collect location information from a device or a connected telematics service when tracking is enabled.

Depending on the feature, location information may be used to show a last-known location, record work-related trips, identify arrival at or departure from a construction site, and generate operational reports.

Location tracking may require device permissions, an active internet connection, and background-location access where supported and permitted by the operating system.

Owners and administrators must have appropriate authority to enable monitoring of vehicles and workers. They are responsible for informing affected workers and drivers about applicable workplace monitoring practices and ensuring that tracking is used lawfully.

FleetVix should not be treated as a guarantee of continuous location visibility. Location records may be delayed, incomplete, or inaccurate.

5. Fuel and Machinery Data

Fuel information may come from manual entries, uploaded receipts, calculations, or compatible third-party systems.

Unless verified data from a supported sensor or machine system is available, fuel consumption and remaining-fuel figures may be estimates rather than actual measurements.

FleetVix does not guarantee that an estimate will detect fuel theft, leakage, mechanical faults, or unauthorized refuelling.

6. Who Can Access Information

Access depends on account roles, permissions, assignments, and applicable law.

- Owners may access information associated with their organization, sites, vehicles, and authorized team members.
- Supervisors may access information permitted by their assigned responsibilities.
- Drivers and workers may access their own relevant records and assigned work information.
- Authorized FleetVix personnel may access information when necessary for support, security, maintenance, or other legitimate operational purposes.
- Third-party service providers may process information on our behalf to provide hosting, authentication, maps, notifications, payment processing, analytics, or other enabled services.

We do not authorize access to information simply because someone knows a vehicle identifier or another user's account details.

7. Third-Party Services

FleetVix may use third-party services such as cloud hosting, authentication providers, mapping services, payment gateways, messaging services, and AI providers.

Those providers may process information according to their applicable terms, privacy policies, and contractual arrangements. Their availability and data-handling practices may differ.

Where an integration is enabled, only the information reasonably necessary for that service should be shared, subject to applicable law and required permissions.

8. Data Storage and Retention

We retain information for as long as reasonably necessary to provide FleetVix, maintain operational records, resolve disputes, protect the service, and comply with legal obligations.

Retention periods may vary by information type. Certain financial, transaction, security, or legal records may need to be retained after an account is closed.

Where information is no longer required, we will delete it or take appropriate steps to anonymize it, subject to applicable law and legitimate retention requirements.

9. Data Security

We use appropriate technical and organizational safeguards intended to protect information against unauthorized access, alteration, disclosure, loss, and misuse.

These measures may include access controls, authentication, secure communications, database permissions, and security monitoring.

No online service can guarantee absolute security. Users should protect their login credentials and promptly report suspected unauthorized access.

10. Your Choices and Privacy Rights

Subject to applicable law, you may request access to, correction of, or deletion of personal information, withdraw consent where consent is the applicable legal basis, or raise a privacy complaint.

Some information may need to be retained where required or permitted by law. Withdrawing consent may also make certain features unavailable.

To submit a request, contact: [Privacy email address].

We will explain any necessary verification steps and respond in accordance with applicable legal requirements.

11. Children's Information

FleetVix is intended for business and construction operations, not for children to use independently.

If we become aware that personal data has been collected from a child in circumstances that violate applicable law, we will take appropriate steps to address the issue.

12. Changes to This Policy

We may update this Privacy Policy as FleetVix develops or applicable requirements change. We will publish the revised version with an updated date and provide any additional notice required by law.

13. Contact Us

For privacy questions, data requests, or complaints:

Service: FleetVix

Legal Entity/Owner: [Legal name]

Address: [Business address]

Email: [Privacy or support email]

Please include sufficient information for us to understand and respond to your request.
